

## **SAGITER** **'Agroecological Knowledge and Ingenuity** **of territories'**

SAGITER project intends to participate in a dynamic of promoting/upgrading the agroecological knowledge, and of these ingenious systems implemented with the passing of time on the territories. In this context, the training is aimed at developing the evolution of representations, acquisition, or reintroduction of technics, consolidation of network and of social links.

SAGITER it is a study- action which leans essentially on the ways of transmission of the knowledge and aims for:

- Producing and spreading educational resources
- Facilitating sharing of experiences and practices
- Participating in the consolidation of a real European network built around the agroecological knowledge which - as of the agroecology in general - has been one of the priorities of the member states of the European Union

Project Partners:

The project is coordinated by Montpellier SupAgro, Institute for Higher Education in Environment – Florac (France)

Fumeterre (France)

Savoir-Faire & découverte (France)

The Merle training center SupAgro (France)

Geyser (France)

Department of Geography, University of Marburg (Germany)

Federation of family agrarian schools in Galicia (Spain)

Vlaamse Landmaatschappij (Belgium)

Chamber of Agriculture and Forestry (Slovenia)

Szent István Univerity (Hungary)

USAMV de Cluj Napoka (Romania)
