

Sagiter program

Intends to participate in a dynamic of promoting/upgrading the agroecological knowledge, and of these ingenious systems implemented with the passing of time on the territories. In this context, the training is aimed at developing the evolution of representations, acquisition, or reintroduction of technics, consolidation of network and of social links.

Sagiter it is a study- action which leans essentially on the ways of transmission of the knowledge and aims for:

- Producing and spreading educational resources
- Facilitating sharing of experiences and practices
- Participating in the consolidation of a real European network built around the agroecological knowledge which - as of the agroecology in general - has been one of the priorities of the member states of the European Union.

The project is coordinated by
Montpellier SupAgro, Institute for Higher Education in Environment - Florac
Partners

- Fumeterre (France)
- Savoir-Faire et découvertes
- The Merle training center SupAgro (France)
- Geysler (France)
- Working group regional studies, Department of Geography, University of Marburg (Germany)
- Federation of family agrarian schools in Galicia (Spain)
- Vlaamse Landmaatschappij (Belgium)
- Chamber of agriculture and forest in Ljubljana (Slovenia)
- Szent Istvan University (Hungary)
- USAMV de Cluj Napoka (Romania)

Sagiter is supported by the European Union
through the Leonardo da Vinci program

Program Sagiter

Program SAGITER je namenjen sodelovanju v dinamični promociji in nadgradnji praks povezanih s tradicionalnimi znanji in iznajdljivostjo podeželja, ki jih strokovnjaki ponekod imenujejo agroekološka znanja. Usposabljanje povezano s tem je namenjeno spoznavanju in ponovnem uvajanju tehnik in praks ter vzpostavitvi omrežij ter socialnih vezi na podeželju.

SAGITER se predvsem osredotoča na spoznavanje načinov prenosa omenjenih znanj in ima za cilj:

- oblikovanje in razširjanje izobraževalnih virov
- olajšati izmenjavo izkušenj in dobrih praks
- sodelovanje pri krepitvi evropskega omrežja namenjenega agroekološkemu znanju. Trajnostni oziroma agroekološki pristop kmetijstvu je ena od prioritet držav članic Evropske skupnosti.

Projekt koordinira Montpellier SupAgro- Inštitut za visoko izobraževanje za okolje v Floracu, Francija.

Partnerji projekta so:

- Fumeterre, Francija
- Savoir-Faire & découverte, Francija
- The Merle training center (SupAgro), Francija
- Geysler, Francija
- Department of Geography, University of Marburg, Nemčija
- Federation of family agrarian schools in Galicia, Španija
- Vlaamse Landmaatschappij, Belgija
- Kmetijsko gozdarska zbornica Slovenije
- Szent Istvan University, Budimpešta, Madžarska
- USAMV de Cluj Napoka, Romunija

Projekt SAGITER je podprt s strani Evropske skupnosti s pomočjo Programa Leonardo da Vinci. Podprogram vseživljenjskega učenja.
