- Conception and realization of the training course about SAE for the teachers of the French Agricultural education from 26 till 29 May 2015 26 au 29 mai 2015 (*Michel, Loïc, Marie-Laure*)

SupAgro Florac

Research-action (2/2)

- Inquiries (*narrative of life and interview of explicitation*) with teachers and with pupils of agricultural high schools to observe the transmission and the learning process of knowledges and practices relative to the animal well-being (*Michel*)
- Evaluation of an educational approach to teach uncertain agro-ecological knowledges with pupils of agricultural high school (*Michel*) : *example of practices of cohabitation with the wolf.*
- Inquiries (*interview in auto-confrontation*) with an under construction dry stone trainer and with a retired man transplanting fruit trees (*Loïc*)

Association Fumeterre

- Collecting situations of transmission in agroecological knowledges, in agriculture - oléiculture, truck farmer, farmer backer, animal drive and in collective gardens - - preservation of grounds by mounds, composting- with transmitters and "receivers";
- Observation and analysis of the transmission and the learning of knowledges and practices agro ecological in the situations above.
- Link with the group « pedagogy » in the université du vivant , about the educational methods adapted to the alive, on the fund and on the shape
- Meetings of the folowing comitee.

Association Fumeterre

- Link with various networks on the transmission of the agroécological knowledges
- Communication about the project Sagiter on the occasion of events on agroecology.

Centre de formation du Merle

- Continuity of the capitalization of the feedback of students on learning of knowledge of custody.

Savoir-faire et découverte

Test videos about « *transmission of skills through practice* », between a professional and learner(s).

Objective : the use of video as a teaching tool - for what public, what uses (*information, education, or training*) - what specifications ?

Reportage among professional trainers and among trainees who learned with these professionals : photo galleries and written testimonials on the role of the transmission by the gesture. How this transmission situation plays on the motivation of the promoters, their autonomy, their skills ...

Savoir-faire et découverte

On going

Organizing of a national event :

www.lesgestespartages.fr,

which invites public to "practice a gesture, a technique,"

among peasants transformers

Date : October 24 and 25, 2015.

Association Geyser

Follow working with regional parks in PACA

- Two periods of meeting with Parks to review the progress of the program and prepare the realization of a publication (5 and 6/02, 3/04)
- Writing work in progress
- Continuation of the work for the realization of videos on each medias of the Parks and the evolutionary Internet support.
- Preparation of a communication document for the agricultural educational establishments of the Region of Provence-Alpes-Côte d'Azur to incite the teaching teams to value the approach of Parks in their educational projects on the local agro-ecological knowledges

Association Geyser

Publication (in progress) to report the approach of Parks on the peasant ecological knowledges

- Emphasis of the utility of the local knowledges for the sustainable management of the resources and the territories
- Emphasis of the experience of holders of knowledges (across testimonies)
- Link with the agro-ecosystems of Parks (knowledges inserted into ecological and agronomic logics)
- Opening on the runways of valuation of the meditative knowledges, the link in the agricultural education and the research

Association Geyser

Articulation with Sagiter

- Work in connection with the CRIPT and SupAgro for a reflation of the communication with the agricultural education of the Region of Provence-Alpes-Côte d'Azur to mobilize teaching staffs about the peasant ecological knowledges, by taking support on the work of Parks
- Participation to french partnership meetings (December 18th and March 23rd-24th) to establish proposals of objectives and contents of a project of trainers training.
