

## QUESTIONNAIRE FOR STUDENTS

1. **Have you ever heard the sustainable agricultural production expression?**

- Yes
- No

2. **What do you think is the meaning of mentioned expression?**

3. **According to your opinion, what points play a significant role in the building up a sustainable agricultural structure? (More answers are allowed!)**

- Ensuring employees' well-being
- Ensuring conditions of safety work
- Waste and pollution management
- Ensuring conditions of recycling
- Take into account environmental tasks
- Maintain statue of environment
- Develop transparent production conditions
- Biological/ecological farming (using only biomaterials)
- Integrated farming
- Maintain biodiversity
- Nutrition management, nutrition supplement
- Precision system
- Reach a lower energy use
- Traditional livestock management
- Intensive livestock management
- Growing native and domestic pieces
- Develop documentation system for farming
- All
- Neither

4. **According to your opinion, how important are factors below in connection with sustainable agricultural production. Please mark your opinion using the scale connected to the sentences to express your opinion. (1: completely unimportant, 5: completely important. Use the values between the two endpoints to moderate your opinion).**

	1 Completely unimportant	2	3	4	5 Completely important	I do not know.
Continuous data sharing to controlling authorities	1	2	3	4	5	
Monitoring used technology at farms	1	2	3	4	5	
Monitoring risk caused by the changes of growing structure	1	2	3	4	5	
Enhancing conditions of safety working	1	2	3	4	5	

Coaching of employees	1	2	3	4	5	
Enhance trainings (both for farmer and employees)	1	2	3	4	5	
Develop judicial payment system	1	2	3	4	5	
Controlling subcontractors connection to production	1	2	3	4	5	
Identifying polluting materials during farming	1	2	3	4	5	
Develop strategies for handling polluting materials	1	2	3	4	5	
Evaluating effects of farming on environment	1	2	3	4	5	
Evaluating effects of farming on biodiversity	1	2	3	4	5	
Take into account energy efficient solutions	1	2	3	4	5	
Way of distribution/length of distribution channel	1	2	3	4	5	
Complain management during distribution	1	2	3	4	5	
Give access to documentation of grown plants	1	2	3	4	5	

**5. According to your opinion, what are the characters of environmental friendly foods? (More answers are allowed!)**

- Renewed/renewable packaging
- Not over-packaged
- There is the environmental friendly product trademark on the packaging
- Helyben termesztett élelmiszerek.
- Locally grown food staffs
- Foods, mostly transported by car
- Foods, mostly transported by train
- Foods, mostly transported by ship
- Foods, mostly transported by plain
- Chemical and fertilizer free farming
- Organic foods (trademarked)
- Fresh foods
- Available in big packaging
- Produced only by small farmers
- I do not know
- Other:

**6. Please mark, which information can influence your decision during food purchasing! (More answers are allowed!)**

- Not tested on animals
- Produced in Hungary
- Supporting charity events/goals
- Supporting sport events
- Producer do not exploit its employees
- There is Fair Trade trademark on packaging

- Organic food product
- Producer meet requirements of law
- Producer is honored by NGOs
- Producer is active during social events
- I do not know
- Other:

7. **According to your opinion, is it important to reduce food miles to reach a sustainable food trade?**

- Yes
- No

8. **According to your opinion, which food system can effectively reduce food miles?**

- Community agriculture (community of farmers and consumers), Institutional supply
- Farmers' stores and markets
- origin labeling
- traditional food chain system (food stores)
- private standards
- fair trade
- Neither

9. **According to your opinion, at Hungary how much do people taken into account the factors below connected to sustainable agricultural practice, nowadays?**

	Completely not important	Rather not important	Important	Rather important	Completely important	I do not know.
Environmental viewpoints						
Improvement of social welfare						

10. **According to your opinion, do statements below meet principals of ecological farming? Please mark your opinion using the scale connected to the sentences to express your opinion. (1: completely do not, 5: completely do. Use the values between the two endpoints to moderate your opinion).**

	1 Completely do not	2	3	4	5 Completely do	I do not know.
Growing food product high in nutrition	1	2	3	4	5	
Farming works in harmony with nature	1	2	3	4	5	
Improving and extending the circulation of organic substances in agricultural systems	1	2	3	4	5	
Maintaining and improving productivity of soil in a long term period	1	2	3	4	5	
Maximum use of renewable energy	1	2	3	4	5	

sources of local agricultural systems.						
Maximum work inside the boundaries of closed systems, recon with organic substances and food ingredients.	1	2	3	4	5	
Take into account the animal welfare	1	2	3	4	5	
Avoiding polluting effect of agricultural machines	1	2	3	4	5	
Maintain agricultural systems and genetic diversity of connecting areas, and conservation of living places of plants and animals	1	2	3	4	5	
Minimizing emission of polluting staffs.	1	2	3	4	5	
Include renewable energy sources into agricultural processes.	1	2	3	4	5	
Production of totally depredeating organic foods.	1	2	3	4	5	
Producing textile in a long lasting and good quality.	1	2	3	4	5	
Acceptable salary for employees of farm to be satisfied with them works. Safe working conditions.	1	2	3	4	5	
Take into account wider social and ecological effects of farming.	1	2	3	4	5	

**11. Please mark those elements, which must be taken into account during formation of ecological farming. (More answers are allowed!)**

- GMO free production
- Ionizing radiation free production
- Building up a farming system, which meets the growing-limitation of soil
- Take into account animal welfare
- Protection of environment
- Fairness (through the complete system, for instance business partners, next generations)
- Diligence (responsibility, caution, for instance introducing new technologies)
- Health (basic character in the complete system)

**12. According to your opinion, how harmless are factors below in connection with foundation of ecological farms. Please mark your judgment using the scale connected to the sentences to express your opinion. (1: completely do not, 5: completely do. Use the values between the two endpoints to moderate your opinion).**

	1 Completely do not	2	3	4	5 Completely do	I do not know
Polluting substances form external environment.						
Polluting substances which is found basically at the area (for instance long-lasting pesticides).						
Polluting substances, come from the						

neighborhoods, can not be avoid.						
Lack of regulation about required distances from other polluting elements (for example roads).						
Less expansive regulation.						

**13. Please mark your gender.**

- woman  man

**14. Please mark the level of your studies.**

- BA/BSc  
 MA/Msc

**15. Please mark your age category.**

- 15-24 years old  
 25-34 years old  
 35-49 years old  
 50-64 years old  
 65- years old

**16. Are there children under 18 years old in your household?**

- Yes  
 No

**17. Please mark the size of your household: ..... person(s) (include yourself)**

**18. Please mark the type of the settlement where you live in.**

- rural  urban  
 mixed-urban  metropolitan

**19. Please mark the county where you live in!**

- |   |   |
